Megaplas drives the new look for MOEVE

Megaplas has been at the forefront of transforming the energy sector alongside its clients. It has played a key role in developing and implementing the new look for MOEVE service stations, a project that embodies innovation, sustainability and brand evolution.

This change is not merely aesthetic: it reflects a new way of understanding mobility and the customer experience at service stations, in line with today's energy challenges.

Megaplas has contributed by:

- Producing and installing corporate branding elements
- Adapting spaces to the new visual identity
- Efficient implementation across multiple locations
- Ensuring quality and brand consistency

Every project is an opportunity to add value, pay attention to detail and support clients in their growth.

Megaplas remains committed to innovative solutions that transform spaces and brands.
